Subject: UFO Documentation

Dear Sir,

I enclose a photo-stat copy of a letter submitted to the Rt. Hon Marilyn Rees MP in relation to a specific request by a **Section 40** who is a research member of the above named UFO organisation.

Within this letter, you state specific enquiries will be dealt with by the fairly new dept named Sec (AS) -2. This is your department. Unfortunately, I have to complain, that this said office does not even reply to genuine research enquiries made by civilian UFO groups. I can name, date and submit to you personally, at least six such requests for data which have not even acquired an acknowledgement, this I feel is a disgrace.

This organisation once again requests that all letters forwarded to your dept, dating back to December 1984 (form'y DS8) should be looked into. We feel the UFO phenomenon is a serious problem which at times does afford a defence interest and as such the public has a right to view for themselves such documents.

The United States, France (G.E.P.A.N.), Spain and even Australia offer a much better service to scientific establishments like ourselves. The sooner all UFO documentation is released the better.

I look forward to your reply.

Yours Faithfully,

**Section 40**

Director of Research

**Section 40**

British Representative of NICAP USA
