John Knight, who has fathered by his wife and nine more by has a new third woman in his

year-old Lynn Attwater, best friend fe, Carol. She has refused to move, but his mistress, 43-year-old Clare,

ed Knight, 47, said yesterday: "I much, but I realise the hurt I'm mly, and am trying to work out best.

no chance of me leaving my family."

Lynn lives at Penpoint View, Eveland, Cornwall. That is where Knight used to jog nine miles between his wife and mistress when they lived in separate cottages on Bodmin Moor.

Shock

Now they live 12 miles from Lynn in council houses 200 yards apart at Doublebois, near Liskeard.

Wife Carol, 38, who gave birth to Knight's 21st child in July said yesterday: "It was a real shock when I learned about Lynn and John."

And Knight said: "She's really a long-standing friend of all of us."

...the RAF at Woodbridge. With the help of UFO experts in Britain and the U.S. we have obtained a copy of his official report on the incident, part of which is reproduced on the right.

On official USAF newspaper and headed "Unexplained Light," Colonel Halt wrote:

"Early in the morning two USAF security police personnel saw unusual lights outside the back gate at RAF Woodbridge."

Thinking an aircraft might have crashed or been forced down they called for permission to go outside the gate to investigate.

The on-duty flight chief responded and allowed three patrolmen to proceed on foot.

The individuals reported seeing a strange glowing object in the forest.

PULSED

The object was described as being metallic in appearance and triangular in shape, approximately two to three metres across the base and approximately two metres high. It illuminated the entire forest with a white light.

The object itself had a pulsing red light on top and a bank of blue lights underneath. The object was hovering on legs.

As the patrolmen approached the object it manoeuvred through the trees and disappeared.

At this time the animals on a nearby farm went into a frenzy. The object was briefly sighted approximately an hour later near the back gate.

The next day three depressions, one-and-a-half

WORRIED

Immediately thereafter three white-like objects were noticed in the sky. Two objects to the North and one to the South, all of which were about 10 degrees off the horizon.

The object moved rapidly in sharp angular movements and displayed green and blue lights. The objects to the North appeared elliptical through an 8-12 power lens.

They then turned off full circles.

The object to the North remained in the sky for an hour or more. The object to the South was visible for two or three hours and beamed down a stream of light from a time to time.

Numerous people, including myself, witnessed these events.

The Colonel, who drives an open sports car, sped away from the base when the News of the World called to question him further.

When we caught up with later he admitted to elaborate, saying that the

report "unexplained lights" and a strange glowing object that lit up the forest.

The Colonel sat in my office and was a very warm man.

The first I knew of the events was when he came to my office and related what he had seen. I know that that well and respect him and fully believe he was telling me the truth.

In 16 years of service in the RAF I had much to do with the desert. I have even been to a UFO. That was the day the Colonel came to my office I would have scoffed, but not now.

I have a completely open mind. It was never seriously thought to be an aircraft in difficulty other than the whole rescue fleet would have been put into operation. That did not happen.

But, whatever it was, it was able to perform feats in the air which no known aircraft is capable of doing.

CONVOY

"I am a Christian and believe that certain things can happen which we are unable to explain. Such as the birth of Jesus Christ. I put the events the Colonel related to me down to an inexplicable phenomena."

He asked me what he should do and I told him to put it down on paper. The report he made was taken from a tape recording which he made at the time of the event.

"I believe that recording has now been wiped clean."

The Colonel's report confirms the strange events in the forest that night, but lacks the eyewitness detail given to us by Art Wallace, a USAF security policeman, now back in America as a civilian.

He was sent to the site in a convoy of military

vehicles that night and describes what he saw.

We looked up in the sky and saw a red ball of light coming towards us from over the trees.

There was no noise, no sound at all. We were all mesmerised.

All of a sudden, the red light exploded. The place was filled with an explosion of colours, all kinds of colours.

We were momentarily blinded and when the colours died down there was a machine there.

Art said there were beings aboard the craft, but he could not see them as he was on the wrong side.

"But others did. They said there were three, wearing silver suits."

Art Wallace—we have changed his name for security reasons—tells his story on Page 7 today.

The first sighting of the craft over England was recorded on a radar screen at RAF Watten, 50 miles away from where it landed.

They reported: "Tracing unidentified object." Radar operators followed the progress as it flew over the East Coast until it disappeared.

In London, the Ministry of Defence declined to lift the veil, although the USAF said its officials reports had been sent there.

No HOAX: Brig. Gen. Williams

NO HOAX SAYS THE AIR CHIEF

THERE has been no hoax, says the man who was in charge of the USAF base at Woodbridge at the time the UFO came down.

The wing commander, now Brigadier General Gordon Williams, said back home in America: "I recall Lt-Colonel Halt's report.

Silence

"I don't know exactly what happened. It is all there."

"He is not a man who would hoax the British Ministry of Defence or the American Air Force Department."

At Woodbridge, all enquiries ran into a wall of silence.

USAF Capt. Kathleen McCollon, chief of the public affairs division at the base told solicitor Harry Harris, a UFO investigator from Manchester, in a letter:

"I was not an eyewitness to the events you say took place, and do not know of anyone who was."

Shown Colonel Halt's report later, she admitted: "Yes, something did happen and it is detailed in that document."

She declined to amplify the report.
