Section 40

24.
(+2)

Dear Sirs.

28-3-85.

I am sending you information which I have investigated concerning UFO's that are operating from Lough Neagh. (Map inclosed).

I have been investigating from 1966 almost 19 years, from 1966-1968 I sent reports to a Section 40 at the MOD in 1968 I gave a talk on the subject to Group Captain Section 40 Co. (Aldergrove) and some of his staff.

Over the years the world press published reports of flying football size glowing white that followed aircraft. cars. people. OBJECTS
May I point out to you that this object is a decoy?

The main object is just above this craft it is around 20 feet in diameter and about 9 feet high it has a brilliant lit cabin,

It uses as a camouflage Invisibility if they are caught of guard.

It works just like switching an electric light on or off.

Also the lights on the craft work from right to left.
