Subject: Correspondence from the public - UFOs

I attach a copy of a letter from Section 40 enquiring about the possible identity of a light viewed over Brighton on 9 October.

Whilst I could give the standard reply that we are only interested in the defence implications of UFOs I would like, if anyone has any bright ideas as to what the object/light might have been, to let Mr. Section 40 know.

Can you help please?

Section 40

No bright ideas!!
